- Auditor's fees are proposed to be payable in accordance with approved invoice.

The Nomination Committee proposes that the Meeting resolves on the following principles for appointing the Nomination Committee for the next Annual General Meeting.

The Nomination Committee shall consist of four members. The three, in terms of votes, largest shareholders/owner groups (the "**Largest Shareholders**") in the Company as of 31 August the year preceding the Annual General Meeting, according to the list of shareholders in the share register maintained by Euroclear Sweden AB or that in another way are proved to be one of the Largest Shareholders, are entitled to appoint one member of the Nomination Committee each. In addition, the Chairman of the Board of Directors shall be appointed as member of the Nomination Committee. The Chairman of the Board of Directors shall summon the Largest Shareholders by 15 October the year preceding the Annual General Meeting, at the latest. If any of these shareholders waive their right to appoint a member of the Nomination Committee, the next shareholder/owner group in order of size shall be given the opportunity to appoint a member of the Nomination Committee.

The CEO or any other person from the senior management shall not be a member of the Nomination Committee. The Chairman of the Board of Directors shall summon the Nomination Committee's first meeting.

The Chairman of the Board of Directors shall not be appointed Chairman of the Nomination Committee. The Nomination Committee's term of office extends until a new Nomination Committee is appointed. The composition of the Nomination Committee shall be made public no later than six months before the Annual General Meeting.

If it becomes known that a shareholder that has appointed a member of the Nomination Committee, as a result of changes in the said owner's shareholdings or due to changes in other owners' shareholdings, is no longer one of the Largest Shareholders, the committee member who was appointed by said shareholder shall, if the Nomination Committee so decides, resign and be replaced by a new member appointed by the shareholder who at the time is the largest registered shareholder that has not already appointed a member of the Nomination Committee.

If the registered ownership structure is otherwise significantly changed prior to the completion of the Nomination Committee's work, the composition of the Nomination Committee shall, if the Nomination Committee so decides, be changed in accordance with the above stated principles.

The Nomination Committee proposes that the Meeting resolves on the following instruction for the Nomination Committee's work ahead of the next Annual General Meeting.

Members of the Nomination Committee

Members of the Nomination Committee are to promote the common interests of all shareholders. The members of the Nomination Committee shall not unduly reveal the content and details of the discussions of the Committee. Each member of the Nomination Committee is to consider carefully whether there is any conflict of interest or other circumstance that makes membership of the Nomination Committee inappropriate before accepting the assignment.

The tasks of the Nomination Committee

The tasks of the Nomination Committee are, where applicable, to propose decisions to the shareholders' meeting on:

- election of Chairman for the shareholders' meeting
- number of members of the Board of Directors
- fees to members of the Board of Directors appointed by the shareholders' meeting, including remuneration for committee work
- auditor fees
- election of members of the Board of Directors and Chairman of the Board of Directors
- election of auditor
- principles for the appointment of the Nomination Committee
- instructions to the Nomination Committee

The composition of the Board of Directors

The Board of Directors is to have a composition appropriate to the Company's operations, phase of development and other relevant circumstances. The board members elected by the shareholders' meeting are collectively to exhibit diversity and breadth of qualifications, experience and background. The Company is to strive for gender balance on the board.

As part of the Nomination Committee's work on finding suitable candidates and assessing the need for complementary competence and to assess both the composition of the Board of Directors and the suitability of individual members, the Nomination Committee shall examine the internal board evaluation from the Chairman of the Board of Directors and each board member's own evaluation of the Board's overall competence, the work climate and the member's own competence.

Furthermore, the Board of Directors shall be ownership based and, at the same time, the need for independence from the Company, the Company's management and the Company's major shareholders shall be taken into account regarding the Board of Directors as a whole.

Members of the Board of Directors are to be appointed for a period extending no longer than to the end of the next Annual General Meeting. Deputies for directors elected by the shareholders' meeting are not to be appointed. Before the Nomination Committee nominates a candidate for the Annual General Meeting, the Nomination Committee shall conduct an assessment of the candidate's suitability, partly on the basis of an overall evaluation of the composition of the Board of Directors, and partly on the basis of an evaluation, among other things, of the candidate's character and theoretical and practical experience. Potential conflict of interest should also be taken into account. Furthermore, the candidate's ability to devote enough time on the board assignment shall be assessed.

Proposal for election of auditor

The Nomination Committee's proposal to the shareholders' meeting on the election of the auditor is to include the Audit Committee's recommendation (or that of the Board of Directors if it does not have an audit committee). If the proposal differs from the recommendation, the reasons for not following such recommendation are to be stated in the proposal.

Work of the Nomination Committee

The Company shall pay for reasonable costs that the Nomination Committee has considered to be necessary in order for the Nomination Committee to be able to complete its assignment.

The Nomination Committee is to issue a statement explaining its proposals with regard to the requirements concerning the composition of the Board of Directors contained in this instruction. The Committee is to provide specific explanation of its proposals with respect to the requirement to strive for gender balance. The statement is also to include an account of how the Nomination Committee has conducted its work.

The Nomination Committee is to notify its proposals and statements to the Company in sufficient time for it to be presented in the notice of a shareholders' meeting where the election of board members or auditors is to be held as well as published on the Company's website when the notice of the shareholders' meeting is issued.

At a shareholders' meeting where the election of board members or auditors is to be held, the Chairman of the Nomination Committee, or whoever the Chairman appoints, is to present the Nomination Committee's proposals and statements.

Furthermore, the Nomination Committee shall carry out the tasks assigned to it pursuant to the Swedish Corporate Governance Code.

Proposal under item 4: Election of one or two persons to approve the minutes of the Meeting

The Board of Directors proposes that the Meeting elects one or two persons that are proposed by the Chairman of the Meeting and who are not a board member of, or employed by, the Company to attest the minutes of the Meeting.

The assignment to attest the minutes shall also include verifying the voting list and that the received postal votes are correctly reflected in the minutes of the Meeting.

Proposal under item 8 (b): Resolution on allocation of the result of the Company in accordance with the adopted balance sheet

The Board of Directors proposes that the Meeting resolves that Episurf shall not pay dividends for the financial year 2022.

Proposals under item 13: Resolution on approval of remuneration report

The Board of Directors proposes that the Meeting resolves to approve the Board of Directors' remuneration report prepared in accordance with Chapter 8, Section 53 a of the Swedish Companies Act.

Proposal under item 14: Resolution regarding guidelines for remuneration to the senior management

The Board of Directors proposes that the Meeting resolves on the following guidelines for remuneration to senior executives.

The guidelines comprise the CEO and the other members of the senior management of the Company. Remuneration covered by the guidelines shall include salary and other remuneration to the senior executives. These guidelines shall not apply to any remuneration resolved upon or approved by the general meeting. Hence, these guidelines do not apply to share-based incentive programs or board fees to the Board members.

To the extent that a non-employed Board member elected by the general meeting performs work for the Company, besides the Board assignment, consultancy fees and other remuneration on market terms may be granted for such work. Decisions on consultancy fees and other remuneration to non-employed Board members elected by the general meeting are taken by the Remuneration Committee.

For employments governed by rules other than Swedish rules, pension benefits and other benefits may be duly adjusted for compliance with mandatory rules or established local practice, taking into account, to the extent possible, the overall purpose of these guidelines.

The guidelines' contribution to the Company's business strategy, long-term interests and sustainability

The business strategy of the Company is to provide orthopaedists with individualised, top-quality treatment alternatives via the Company's self-developed technology for image analysis, implant design and manufacturing. For more information on the business strategy, please refer to the Company's website (www.episurf.com). A prerequisite for the successful implementation of the Company's business strategy and safeguarding of its long-term interests, including its sustainability, is that the Company is able to recruit and retain qualified personnel. The Company shall therefore offer remuneration and other terms of employment that enables the Company to recruit and retain skilled executives with the experience and competence required. These guidelines enable the Company to offer the senior executives a competitive remuneration.

Types of remuneration

The remuneration shall be on market terms and be competitive, and may consist of the following components: fixed base salary, variable remuneration, pension benefits and other benefits such as company car. Additionally, the general meeting may resolve upon, *inter alia*, share-based remuneration.

Fixed base salary

Each senior executive shall receive a fixed base salary that enables the Company to attract and retain skilled employees. The fixed base salary shall be based on the senior executive's competence, responsibilities and performance.

Variable remuneration

The variable remuneration shall be linked to predetermined and measurable criteria which can be financial and non-financial. Financial criteria may relate to turnover, results, share price development and operational efficiency. Non-financial criteria may relate to clinical activities, personnel-related KPIs and quality-related KPIs. The variable remuneration is thereby linked to the Company's business strategy, long-term interests and sustainability. The criteria shall be established, assessed and re-evaluated annually. For the total variable remuneration, shall the targets be based on financial criteria and non-financial criteria. The variable remuneration shall not amount to more than 50 per cent of the fixed base salary of the senior executive. Deviations from this principle can occur in exceptional cases, for example in connection with employment, and only for a limited period.

Pension benefits

The pension benefits of the senior executives shall be defined premium pension benefits, unless the senior executive is subject to defined-benefit pension in accordance with the provisions of a collective agreement. The pension premiums for defined contribution may not exceed 4.5 per cent of the annual fixed base salary up to 7.5 Income Base Amounts (Sw. *inkomstbasbelopp*) and 30 per cent of the annual fixed base salary exceeding 7.5 Income Base Amounts. Variable remuneration shall only be pensionable to the extent it is required pursuant to applicable provisions of a collective bargaining agreements. Pension benefits may not amount to more than 50 per cent of the fixed base salary of the senior executive.

Further, salary exchange shall be possible, allowing, e.g., senior executives to exchange parts of the monthly fixed salary against pension payments.

Other benefits

Remuneration to senior executive may consist of other benefits, for example company car and health insurance. These benefits may not amount to more than 30 per cent of the fixed salary of the senior executive.

Salary and employment conditions for employees

In the preparation of the board of directors' proposal for these remuneration guidelines, salary and employment conditions for employees of the Company have been taken into account by including information on the employees' total income, the components of the remuneration and increase and growth rate over time, in the Board of Directors' basis of decision when evaluating whether the guidelines and the limitations set out herein are reasonable.

Notice period and severance pay

The employment agreements between the Company and senior executives shall generally apply until further notice. If the Company terminates the employment of a senior executive, the notice period may not exceed 12 months. The fixed base salary during the notice period and severance pay may together not exceed an amount corresponding to the fixed base salary for a period of 24 months. When termination is made by the senior executive, the notice period may not exceed six months and may not include any right to severance pay.

Decision-making process

The Board of Directors has established a Remuneration Committee. The tasks of the Remuneration Committee includes the preparation of the Board of Directors' proposal for these guidelines. The Board of Directors shall prepare, and submit to the Annual General Meeting, a proposal for new guidelines at least every four years. The guidelines shall apply until new guidelines have been adopted by the Annual General Meeting. The Remuneration Committee shall further monitor and re-evaluate the variable remuneration programs for the senior executives, the application of the guidelines for salary and other remuneration to the senior executives, as well as the current remuneration structures and remuneration levels in Episurf. Senior executives shall not participate insofar as they are affected by the Board of Directors consideration of and decisions on remuneration-related issues.

Derogation from the guidelines

The Board of Directors may temporarily resolve to derogate from these guidelines, in whole or in part, if in a specific case there is special cause for such derogation and a derogation is necessary to serve the Company's long-term interests, including sustainability, or to ensure the Company's financial viability. As indicated above, the tasks of the Remuneration Committee includes the preparation of decisions of the Board of Directors on remuneration-related issues, which includes decisions on deviations from the guidelines.

Proposals under item 15: Resolution on (a) adoption of an incentive programme for certain employees and (b) an issue of warrants of series 2023/2026 and approval of

transfers of warrants of series 2023/2026

Proposal under item 15(a): Resolution on adoption of an incentive programme for certain employees

General

The Board of Directors proposes that the Meeting resolves to adopt an incentive programme for certain employees of the Episurf group based on performance based employee stock options (the “**Programme**”).

The Programme is proposed to provide the Company with a possibility to reduce the cash payments under the Company’s cash based incentive programme for the financial year 2023, as further described below. Furthermore, the purpose with the proposal is also to achieve optimum alignment of interests between the employees and the shareholders in Company, to create conditions for retaining competent personnel to the Episurf group and to drive performance among the employees. The Board of Directors is of the opinion that the proposal is in favour of Episurf and its shareholders.

The Programme means that the members of the senior management (seven persons) and certain other employees of the Episurf group (up to 16 persons) will, in accordance with the below, be allotted a certain number of performance based employee stock options (the “**Performance Options**”) free of charge, which are subject to performance targets that determine to what extent the participants may keep the Performance Options as further set forth below.

No more than 3,898,159 Performance Options will be issued. This implies a maximum dilution of approximately 1.4 per cent of the number of shares and votes in the Company as of the date of this notice. In accordance with the below, the Performance Options are subject to certain performance targets for the financial year 2023, which determine to what extent the employees are entitled to keep and exercise the Performance Options.

Allocation

The Performance Options are proposed to be allotted to the participants free of charge in accordance with the following:

- a. the CEO is allotted 1,042,277 Performance Options;
- b. the other members of the senior management (six persons) are allotted 1,941,181 Performance Options in total, of which no participant within this category may be allotted more than 540,548 Performance Options; and
- c. the other participants (up to 16 persons) are allotted 914,701 Performance Options in total, of which no participant within this category may be allotted more than 77,823 Performance Options.

Terms and conditions, purpose, etc.

Episurf applies a short-term cash based incentive programme for certain employees of the Episurf group, which means that such employees may receive a cash bonus in an amount corresponding to a certain number of monthly salaries based on the outcome of certain predetermined performance targets measured during a period of 12 months. The programme includes (i) the members of the senior management (seven persons), who each may receive a cash bonus in a maximum amount corresponding to four or five monthly salaries, and (ii) certain other employees of Episurf (up to 16 persons), who each may receive a cash bonus in a maximum amount corresponding to two monthly salaries.

In order to reduce the cash payments under the cash based incentive programme for the financial year 2023 (the “**Performance Period**”), the Board of Directors proposes that Episurf shall be entitled to settle up to 50 per cent of any vested cash bonus for each participant of the cash based incentive programme with Performance Options instead of cash. The Performance

Options (i.e. a total of 3,898,159) shall be allotted to the participants as soon as possible following the Meeting and no later than on 30 June 2023. The number of Performance Options to be allotted to the participants has been determined by dividing the amount of the total cash bonus that may be settled with Performance Options (assuming that the maximum cash bonus becomes payable for all employees) with an amount of SEK 0.72, corresponding to the Performance Option's market value calculated according to the Black & Scholes formula taking into account relevant factors where a share price of SEK 2.02 has been used, corresponding to the average volume-weighted share price for the Company's share of series B on Nasdaq Stockholm during the period from and including 22 March 2023 up to and including 28 March 2023.

The Board of Directors of the Company shall, based on the degree of fulfilment of the performance targets for the cash based incentive programme during the Performance Period, be entitled to determine the extent to which (if any) of the allotted Performance Options may be kept and exercised by the employees to acquire shares of series B in the Company at the expiry of a vesting period of three years from the allotment of the Performance Options (the "**Vesting Period**"). The performance targets for the Performance Period includes (i) increase of sales in Episurf's core markets, (ii) increase in the number of clinical publications available for the Company's Episealer® technology, (iii) the degree of progress in clinical studies sponsored by the Company and (iv) the degree of progress within the Company's product development. Each participant and Episurf shall enter into an agreement which shall include detailed terms on the performance targets and the employees' right to keep and exercise the allotted Performance Options. The outcome of the performance targets and the number of Performance Options which can be exercised for acquisition of shares of series B in Episurf will be announced by Episurf ahead of the Annual General Meeting of 2024. The Board of Directors shall be entitled to adjust the performance targets if extraordinary events occur, whereby the adjustments shall aim to maintain appropriate target levels and not make it harder or easier to satisfy the performance targets.

Provided that a participant is still employed by the Episurf group at the expiry of the Vesting Period, each exercisable Performance Option entitles the employee to purchase one share of series B in the Company during a period of one year following the expiry of the Vesting Period. The price for the shares of series B shall be equal to an amount corresponding to 120 per cent of the average volume-weighted share price for the Company's share of series B on Nasdaq Stockholm during the period from and including 26 April 2023 up to and including 3 May 2023, provided however that the purchase price shall never be less than the quota value of the share. The Board of Directors shall be entitled to, upon request by a participant, resolve on recalculation of the number of shares of series B that each exercisable Performance Option entitles the participant to purchase and the price per each such share of series B (the "**Alternative Exercise Model**"). The Alternative Exercise Model entails that participants, who wish so, will not have to pay as high of an amount in cash when purchasing shares of series B in connection with exercise of Performance Options, but will instead receive a reduced number of shares of series B. Upon application of the Alternative Exercise Model, (i) the price for each share of series B shall correspond to the quota value of the share and (ii) the Performance Options shall entitle to a re-calculated reduced number of shares of series B, which means that the Alternative Exercise Model cannot lead to an increased dilution compared with all Performance Options being exercised for acquisition of newly issued shares of series B at the original price.

The Performance Options may not be transferred or pledged. In case of special circumstances, the Board of Directors shall be authorised to resolve that Performance Options may be kept and exercised despite the fact that the employment in the Episurf group has ceased, for example due to illness.

The Board of Directors shall be entitled to make adjustments to the Programme if significant changes in the Episurf group, or its markets, result in a situation where the decided terms and conditions for exercising the Performance Options are no longer appropriate. This right shall also include the possibility to offer synthetic options with cash settlement for participants in jurisdictions where participation in the Programme, due to regulatory reasons, is not possible or deemed inappropriate. The terms of such synthetic options shall, as far as possible, be designed so that they correspond to the terms of the Performance Options.

Proposal under item 15(b): Resolution on an issue of warrants of series 2023/2026 and approval of transfers of warrants of series 2023/2026

To ensure delivery of shares to holders of the Performance Options, and to hedge costs for any synthetic options, the Board of Directors proposes that the Company shall issue a maximum of 3,898,159 warrants of series 2023/2026 (the “**Hedge Warrants**”). The right to subscribe for the Hedge Warrants shall, with deviation from the shareholders’ preferential rights, rest with the Company.

The Hedge Warrants shall be issued to the Company without compensation and subscription shall take place on a separate subscription list no later than on 30 June 2023.

Each Hedge Warrant entitles the holder to subscribe for one new share of series B in the Company during the period from and including 1 June 2026 up until and including 31 May 2027. The subscription price shall be equal to an amount corresponding to the quota value of the Company’s shares. The increase of the Company’s share capital will, upon exercise of the Hedge Warrants, amount to not more than approximately SEK 1,170,437.57 calculated as of the date of this notice.

The Board of Directors finally proposes that the Meeting approves that up to 3,898,159 Hedge Warrants during the period from and including 1 June 2026 up until and including 31 May 2027 are transferred by the Company to participants in the Programme or to third parties in order to ensure delivery of shares of series B pursuant to the Performance Options and to hedge costs for any synthetic options.

Majority requirements, etc.

The Board of Directors’ proposals for resolution pursuant to items 15(a)–(b) above constitute a “package”, since the proposals are dependent on and strongly tied to each other. On account of this, it is proposed that the Meeting only pass one resolution in relation to the above-mentioned proposals with observance of the majority rules that are stated in Chapter 16 of the Swedish Companies Act, meaning that the resolution must be supported by shareholders representing at least nine-tenths of both the votes cast and of the shares represented at the Meeting.

Proposal under item 16: Resolution on authorisation for the Board of Directors to resolve on new issues

The Board of Directors proposes that the Meeting authorises the Board of Directors to, during the period until the next Annual General Meeting, on one or more occasions, with or without deviation from the shareholders’ preferential rights, resolve on new issues of shares, convertibles and/or warrants in the Company. The authorisation shall be limited whereby the Board of Directors may not resolve to issue shares, convertibles and/or warrants that, on a fully diluted basis, represent more than 20 per cent of the total number of shares in the Company.

Payment may, except for in cash, be made in kind, by right of set-off or otherwise against markets terms according to the Board of Directors’ assessment on a case-by-case level.

The Board of Directors or a person appointed by the Board of Directors is authorised to make minor adjustments to the resolution that may be necessary in connection with the registration of the resolution with the Swedish Companies Registration Office or due to other formal requirements.

A valid resolution under this item must be supported by shareholders representing at least two-thirds of the votes cast as well as the shares represented at the Meeting.

NUMBER OF SHARES AND VOTES

On the date of this notice, the total number of shares in Episurf is 266,911,920, of which 479,357 are shares of series A with three votes each, and 266,432,563 are shares of series B

with one vote each. Accordingly, the total number of votes amounts to 267,870,634. The Company does not hold any shares in treasury.

SHAREHOLDERS' RIGHTS TO REQUEST INFORMATION

The Board of Directors and the CEO shall, if requested by a shareholder and the Board of Directors believes that it can be done without significant harm to the Company, provide information in respect of any circumstances which may affect the assessment of a matter on the agenda and any circumstances that may affect the assessment of the Company's financial position. The obligation to provide information shall also apply to the Company's relationship with another group company, the consolidated accounts and such circumstances regarding subsidiaries that are referred to in the preceding sentence.
