LED Electrical shortlisted for Electrical Wholesaler of the Year award in 2012 Electrical Industry Awards

For free and immediate distribution

Independent Electrical Wholesaler LED Electrical Ltd has been shortlisted for the 2012 Electrical Industry Awards

The independent electrical wholesaler based in Lancashire has been announced as finalists for Wholesaler of the Year in the 2012 Electrical Industry Awards. The shortlist for the awards which are in their 20th year, was announced by the organisers at [Electrical Times](#) in the run up to the awards which will be held on 25th October at The Royal Garden Hotel in Kensington.

Rodney Jack of Electrical Times said:

"The number of entries was impressive, I know from adjudicating that with so many quality entrants this year, it was difficult for the judges to make a decision. The shortlist contains recognizable names and brands alongside some less well known but equally successful companies across the length and breadth of the UK".

Michael Fay, Managing Director of [LED Electrical Ltd](#) said:

"We are delighted to have been announced as finalists for Wholesaler of the Year in the Electrical Industry Awards. This is the first time that we have entered this type of competition and to be recognised as one of the leading wholesalers in the UK is a fantastic achievement and well deserved recognition for the dedication of the LED Electrical team.
