

Deconstruct rebrand and showcase specialist contractor website

Deconstruct (part of DE Group) today unveils new website

To coincide with on-going Group expansion, specialist contractor Deconstruct announces rebrand and new industry website at www.deconstructuk.com. The rebranding exercise also includes the other operating companies within the business: [Derisk](http://www.deriskuk.com) (health and safety risk management), [Develop](http://www.developuk.com) (specialist construction solutions) and [Deploy](http://www.deployuk.com) (construction industry labour providers).

[Deconstruct](http://www.deconstructuk.com) provide all aspects of site enablement through to the construction phase of a project.

They are experts within each discipline of the enablement process and how they interface with one another. Deconstruct have successfully delivered many complicated projects where their ability to integrate internal capabilities with strategic partners has driven value, compliance and provided peace of mind for their broadening client base.

The growing business is renowned for safety, delivery, value and innovation differentiates us from our competitors.

Paul Ford – Group Chairman said:

“Deconstruct has quickly established itself as a leading brand and trusted partner on many large scale specialist contractor projects. Our extensive case studies clearly demonstrate the excellent work we carry out, from deconstruction, asbestos removal, structural alterations or site enablement.”

He went on to say:

“The rebrand allows us to reflect the business we are today and shows a confident set of companies, making a real difference in the fiercely competitive construction industry in which we operate.”

ENDS.
