

FlexQube has recruited Mikael Lindbäck as the new CFO for the FlexQube Group

Mikael Lindbäck comes from corresponding financial role at Centiro Solutions AB, a leading innovation company that develops cloud-based software solutions in the supply chain to multinational companies. Centiro Solutions AB currently has offices in Sweden, USA, India and England.

Mikael has been at Centiro Solutions AB for about 2 years and was previously CFO at Gigant AB for 5 years. Mikael will take office at FlexQube at September 16th, 2019.

"It has been a long process to recruit a CFO and we have had many good applications. We feel very satisfied with this recruitment and believe and expect that Mikael will be an important component in FlexQube's continued expansion. In addition to solid CFO knowledge, Mikael also has a strong IT knowledge that is in line with the company's ambition to scale up and analyze the business digitally," says Anders Fogelberg, CEO of FlexQube.

"I have great expectations for Mikael but I feel very calm with handing over the baton to him, both as the current CFO and as an owner. He has extensive and relevant experience and knowledge to create value for FlexQube, both immediately and above all in our continued global expansion. I also believe his great interest in the sales business, the operations and IT skills will have significant positive effects. I will be present and support Mikael as long as he feels it necessary, but I believe that he will be self-sufficient quickly," commented Christian Thiel, CFO of FlexQube.

About FlexQube

FlexQube is a company that offers a unique and patented concept that is used to design and deliver robust, modular and flexible carts and racks. The company has manufacturing in Sweden and USA and distribution in North America and in Europe. On December 14, 2017, the company was listed on the Nasdaq First North in Sweden.

FlexQube has some of the world's largest manufacturers within automotive-, energy-, defense-, aerospace-, home appliances-, and construction machinery among their customers. Some examples are Volvo Cars, Autoliv, Scania, Whirlpool, Eberspächer and Oshkosh.
