

Press release, April 19, 2018

Team Olivia appoints new Head of Norway

Morten Nybakk has been appointed Head of Team Olivia Norway. He takes up his role on May 1, 2018 and will be part of the Group Management Team.

Most recently, Morten Nybakk held the position as growth and development manager of Aberia Healthcare. Prior to this, among other things, he had the role as CEO of Tiltak for Youth and the Tiltak Group.

"We are very pleased to welcome Morten Nybakk as new head of our operations in Norway. Morten has a solid industry and operational knowledge and at the same time experience from working both in a large Nordic group and from his own entrepreneurial business, comments Dan Olsson, President and CEO of Team Olivia.

"I see great potential with Team Olivia's client-centric and decentralized business model with strong local brands. It will be exciting to further develop the freedom of choice and diversity that Team Olivia contributes with, which support society's growing care needs, comments Morten Nybakk.

Morten Nybakk replaces Morten Gohn, who has been acting Head of Norway since January 2018. Morten Gohn resumes his position as Chief Innovation Officer.
