

Crunchfish launches Developer Portal

Crunchfish today announces that the company has launched a Developer Portal. On this portal, SDK's, integration guides, documentation and other useful tools will be available, to make it easy for our partners to integrate with our different solution areas.

The image shows a landing page for the Crunchfish Developer Portal. The page has a light yellow background. On the left, there is a large green text 'DEVELOPER PORTAL' and a subtext 'Let's build great stuff together'. Below this is a yellow button labeled 'REQUEST ACCESS'. On the right, there is a graphic of a computer screen showing a code editor with orange and grey syntax highlighting. The screen has a grey border and an orange header bar with three dots.

[Visit our Developer Portal](#)

Through the portal, Crunchfish will provide developers with software development kits, technical documentation, sample source code, reference guides and more for testing and developing new and innovative applications. Interested developers are welcome to contact us in order to get access to the portal.

About Crunchfish – crunchfish.com

Crunchfish is a tech company with a patent-pending solution for digital offline payments that can be integrated both with the payment rail or in a mobile wallet. The offline solution is globally scalable and makes digital payments more robust as the risks of disruptions and downtime are eliminated. We have also developed Blippit, an app terminal that connects to a cash register system for both online and offline payments. Crunchfish also develops gesture control of smart AR glasses for the consumer market. Crunchfish has been listed on Nasdaq First North Growth Market since 2016 with headquarters in Malmö, Sweden and with representation in India.
