CELLINK completes the acquisition of Ginolis Oy

As announced on February 15, 2021, CELLINK AB (publ) (“CELLINK”) entered into an agreement to acquire the Finnish company Ginolis Oy (“Ginolis”), focusing on diagnostics automation and advanced robotics solutions for medical and diagnostic industries. CELLINK has on this day completed the acquisition of all Ginolis-shares.

The purchase price, on cash- and debt-free basis, amounted to 65.7 MEUR, of which 24.1 MEUR was paid in 666,028 newly issued shares of series B in CELLINK at a price of 363.734 SEK per share (the “**Consideration Shares**”) and the remainder in cash. The price for the Consideration Shares has been determined by the volume weighted average price of CELLINK shares of series B on Nasdaq Stockholm under the last trading day preceding the completion date, i.e., on February 26, 2021. The Consideration Shares are expected to be registered by the Swedish Companies Registration Office during the month of March and will correspond to approximately 1.3 percent of the share capital and approximately 1.0 percent of the votes in CELLINK.

“With this strategic acquisition of Ginolis, we are further realizing CELLINK’s bioconvergence vision and to create the future of medicine by taking one step closer to the patients and improving healthcare around the world. CELLINK will be able to capitalize on several strong synergies within the field of microfluidics, diagnostics, and bioprinting. The cutting-edge modularity of the Ginolis robotics make the platforms ideal for scale-up of bioprinting systems and product offerings, enabling strategic and industrial expansion of our bioprinting capabilities to pharma and biotech customers. Ginolis’ advanced robotics and diagnostics automation for medical device and diagnostic industries can be fully integrated with CELLINK’s current offering and our present and future customers workflows and needs.” Erik Gatenholm, CEO, CELLINK.

For further information on the acquisition and about Ginolis, please see the press release which was published on February 15, 2021.
