OX2 acquires two solar energy projects in Skåne, Sweden

OX2 has acquired the rights to two solar energy projects in Skåne, Sweden, from Helios Nordic Energy. Once in operation the projects are estimated to have a capacity of 45 MW. The acquisition is part of OX2's increased focus on solar energy.

According to the agreement the parties will jointly develop the project until the necessary permits are obtained, then OX2 will later be responsible for construction and operation. The projects are estimated to have a capacity of 45 MW and will be part of OX2's early stage project development portfolio.

– We are looking forward to developing the projects together with Helios and to evaluate further areas for cooperation. OX2's extensive experience from developing wind power is valuable when working with solar energy since the process is similar, says Jon Persson, Head of Solar Sweden, OX2.

OX2 has a portfolio of solar projects under development in Sweden and has offices in Malmö, Stockholm and Östersund.

About OX2 AB (publ)

OX2 develops and sells wind and solar farms. OX2 has taken a leading position in large-scale onshore wind power since 2004 and has developed and sold approximately 2.5 GW in Sweden, Finland, Norway and Poland for clients such as Allianz, Ardian and IKEA. Between 2014 and 2020, OX2 realised more onshore wind power in Europe than any other developer. By constantly increasing access to renewable energy, OX2 is promoting the transition towards a more sustainable future. OX2 has operations in Sweden, Finland, France, Italy, Lithuania, Norway, Poland, Romania and Spain with its headquarters in Stockholm, Sweden. Sales in 2020 was SEK 5,201 million with an EBIT of SEK 416 million. The OX2 share is listed on Nasdaq First North Premier Growth Market. FNCA Sweden AB is Certified Adviser to OX2.
