

Svenska Aerogel Holding AB (publ) to raise prices for Quartzene® products

Svenska Aerogel Holding AB (publ) will increase prices between 10 to 20 % for all hydrophilic and hydrophobic Quartzene® products. This change will be effective for all orders and shipments on or after July 1, or as agreed in contracts.

Increasing the price is a needed step due to the increased cost situation for energy and raw materials, as well as higher operating costs for the plant. This way, Svenska Aerogel can remain a trustworthy business partner and continue to provide customers with good service and high-quality products.
