

SENS expands presence in Spain - joins Green Alliance

Sustainable Energy Solutions Sweden Holding AB (publ) ("SENS" or the "Company") announces today that the Company joins the Sweden + Spain Green Alliance ("Green Alliance"). SENS has already identified Spain as an interesting market and now chooses to strengthen its efforts and expand the Company's presence to find more business opportunities linked to green and sustainable energy storage systems.

Henrik Boman, CEO, comments:

"We are convinced that our technology can play an important role in Spain's green transition. We look forward to working together and exchanging knowledge with other members of the Alliance to promote the green transition in Spain and work towards a greener future for all."

SENS announces today that the Company has joined the Green Alliance. Green Alliance is a joint initiative between Swedish and Spanish companies, led by Business Sweden. It aims to position and promote the role of Swedish actors and their innovative solutions in the green transition in Spain. The initiative provides a forum for members to share experiences relevant to the green transition.

SENS has increased its presence in several international markets over the past year, all of which have great ambitions to exploit the benefits associated with sustainable energy storage systems. The Spanish market has been identified as an attractive market for SENS, as this market is deemed to have a strong underlying driving force in the form of national goals, which favor an increased presence based on SENS's operations.

The Green Alliance aims to highlight business opportunities in various sustainable projects and accelerate collaborations between Swedish and Spanish companies. The initiative provides a common communication platform towards external stakeholders which aims to create business opportunities.

By joining the Green Alliance, SENS takes an important step towards establishing itself increasingly in the Spanish market to promote the Company's potential business opportunities.

About SENS

Sustainable Energy Solutions Sweden Holding AB (publ) (SENS), provides sustainable energy solutions enabling the transition to a fossil-free and CO2 neutral energy mix both locally and internationally. SENS develops, designs, constructs and sells large-scale energy projects combining renewable energy sources with next generation energy storage technologies such as underground pumped hydro storage (UPHS) and/or battery energy storage systems (BESS). The company also conducts technical advisory consultancy services within energy storage and energy systems optimization. The company is listed on NGM Nordic SME under the short name SUST.
