Two new contracts from the Swedish Transport Administration

ÅF have won two new contracts from the Swedish Transport Administration. The contracts relate to project planning for the E14 motorway between Sundsvall and Stöde, and project planning of a triangular junction in Maland and improvements to the Tunadal railway line, for a combined value of SEK 37 million.

The E14 order covers project planning of four roads and tender request documentation. The second order includes railway plans and system documentation for a triangular junction in Maland and the Tunadal railway, as well as tender request documentation.

"ÅF has been focusing on growing the business within infrastructure planning in Norrland for over a year, and we now have over 60 consultants in Umeå, Luleå and Sundsvall, who have successfully established themselves on the market," says Mats Pålsson, President Infrastructure Division.

Corporate Information
