Clarification 11-12-2013

With regard to an article about ÅF's Infrastructure Division that appears in today's issue of *Dagens industri*, ÅF would like to make the following clarification in order to avoid any misunderstanding.

Towards the end of the article, Mats Pålsson, President of the Infrastructure Division, is quoted as saying that he expects the division to grow by 60% in order to achieve sales of SEK 3.8 billion by the end of 2015.

This figure is merely an expression for an internal goal set by the Infrastructure Division and is not intended in any way to be interpreted as a forecast from the division or the ÅF Group.

The ÅF policy, firmly established for more than 10 years, is not to provide forecasts.
