ÅF has signed a consultancy assignment with Tammervoima for a new waste-to-energy power plant

ÅF has signed a consultancy contract with Tammervoima Oy for a new CHP plant in Tampere, Finland.

The assignment includes pre-engineering, implementation engineering, procurement, project management as well as site and commissioning management services. The value of the contract for ÅF is about 5 million euros including option of 1 M€ for delivery, site and commissioning services.

Tammervoima will build a new waste-to-energy CHP at the Tarastenjärvi power plant site in Tampere, Finland. The plant will use about 150 000 tons of municipal waste as fuel annually. Output of the power plant will be c. 100 GWh power and c. 300 GWh heat. The project starts immediately and commercial operation starts in late 2015.

Information department
ÅF AB

The ÅF Group is a leader in technical consulting, with expertise founded on more than a century of experience.
