The Swedish Legal, Financial and Administrative Services Agency selects ÅF for project consulting services in IT

The Legal, Financial and Administrative Services Agency has selected ÅF in the allocation of framework agreements for government agencies. The contract covers project consulting services in IT and spans two years, with the option of a subsequent two-year extension.

“As the Swedish Legal, Financial and Administrative Services Agency negotiates on behalf of practically all government agencies, this is an important contract that will help to boost our growth even more in the public sector,” says Johan Olsson, President of the Infrastructure Division.

ÅF primarily won the contract thanks to its experience of turnkey deliveries that encompass all parts of the tender. The contract is expected to form the basis of assignments for the seven selected consultancies worth a total of nearly SEK 400 million per year.

In project consulting services, ÅF takes principal responsibility for the result of a certain specified assignment. ÅF benefits from its large size and breadth in such services. The contract covers the areas of usability, management and control, operational development and strategy, system development and system management, information security, infrastructure and GIS.

Corporate Information
ÅF AB

ÅF is a leader in technical consulting, with expertise founded on more than a century of experience.
