### ÅF acquires Arcad Architects in Switzerland

**ÅF continues to grow and the acquisition of Arcad Architects in Switzerland is line with the strategy to expand the design and architecture offer as well as growing the business in core markets.**

Arcad Architects is based in Fribourg, Switzerland and is specialized in architecture and site supervision for industrial and commercial buildings. The portfolio includes projects for large customers such as the Swiss postal service, Coop and McDonalds.

The architect and construction management experts at Arcad Architects will through their involvement in the early stages of projects, create additional business opportunities for ÅF in Switzerland.

"We create sustainable engineering and design solutions for the energy, industry and infrastructure market and architecture is an essential part of our solutions. With Arcad Architects onboard in Switzerland we increase our presence in the region and we will be able to create additional value for our clients by offering our broad expertise within engineering and architecture", says Jonas Gustavsson, President and CEO of ÅF.

"We are looking forward to become a part of ÅF and collaborate to provide leading solutions to existing and new clients. Together we have a wide range of skills that will strengthen our client offer", says Claude Aeberhard, CEO of Arcad Architects.

The company has an annual turnover of approximately SEK 10 million and eight employees based in Switzerland. Arcad Architects will be consolidated by the ÅF Group as of February 1 2018.
