## Press release from ÅF Pöyry

### **Marie Trogstam appointed Head of Sustainability at ÅF Pöyry**

**Marie Trogstam has been appointed Head of Sustainability at ÅF Pöyry. In this capacity, Marie will lead ÅF Pöyry's strategic work to develop sustainable solutions to contemporary global challenges.**

Marie Trogstam joins the company from her role as Manager for International Sustainable Business at Business Sweden, where she has been responsible for supporting Swedish companies in developing their business on foreign markets in a sustainable manner. The work included, among other things, to drive both strategic and tactical sustainability projects together with Swedish companies, and to develop cooperation with organisations such as the United Nations, SIDA and Save the Children.

Previous to this, Marie held the posts of Head of Sustainability at Telia Sweden AB and Head of Corporate Responsibility at Saab AB.

"With her extensive experience of working on sustainability issues from an international perspective in complex markets, including in the infrastructure and energy sectors, Marie will be an invaluable asset in leading ÅF Pöyry's own work in the field of sustainability, both internally and as part of our external assignments. Sustainability is at the core of our business and a large proportion of our assignments are aimed at developing sustainable solutions to contemporary challenges such as climate change, globalisation and urbanisation," says Jonas Gustavsson, President and CEO of ÅF Pöyry.

Marie will take up her new position on 1 October, until then Sara Lindstrand, Senior Manager Sustainability, will be acting Head of Sustainability.

Going forward, Sustainability will be part of the Legal function lead by Susan Gustafsson, Executive Vice President and General Counsel.
