Press release from ÅF Pöyry

Region Stockholm signs framework agreement on strategic sustainability with ÅF Pöyry

Region Stockholm signs framework agreement with ÅF Pöyry within the field of environment and sustainability. The agreement consists of four parts, where ÅF Pöyry received the highest score in the *Strategic sustainability* category. It will cover a two-year period, with the option of a further two years' extension.

This year, Region Stockholm carried out a major tendering process, inviting bids for services within environment and sustainability. Out of the ten categories included, ÅF Pöyry was accepted as a supplier within four, namely the areas of *Security advisors*, *Sustainable supply chains*, *Energy*, and *Strategic sustainability*. In the latter category, ÅF Pöyry received the highest score among eleven bidders.

"We are very proud to have got the opportunity to work on environmental and sustainability issues with Region Stockholm. Region Stockholm has ambitious targets that help fulfil the global sustainability goals, and we are honoured that they have chosen us as a partner," says Åsa Fernell Modigh, Regional Manager Environment, Mid East, ÅF Pöyry.

ÅF Pöyry offers sustainability services within, among other areas, analysis, strategy and evaluation, and we cooperate with clients within infrastructure, industry and energy. Our solutions respond to some of the strongest global trends of today: smart cities and infrastructure, increased mobility, industrial digitalisation and a changing energy market.
