Press release from AFRY

AFRY appoints new Country Manager in Denmark

Jesper Wolthers has been appointed Country & HR Manager of AFRY in Denmark. In recent years, AFRY has expanded significantly in Denmark and Jesper will spearhead the consolidation and further development of the company in Denmark.

Jesper Wolthers has been appointed Country & HR Manager of AFRY in Denmark. In recent years, AFRY has expanded significantly in Denmark and Jesper will spearhead the consolidation and further development of the company in Denmark.

Jesper Wolthers joins AFRY from his previous role in Global HR Operations, GBS HR with Falck. For the last 12 years, he has worked with HR in complex international organisations securing optimal structures to support the services the companies provide to their customers.

Through the acquisition of the companies Midtconsult, Gottlieb Paludan Architects and P.A.P, AFRY has, since 2017, grown from 150 to 600 employees in Denmark. At AFRY in Denmark, we deliver sustainable solutions for buildings, energy, infrastructure, lighting, architecture and advanced automation and processes.

“Denmark is a strategic market for AFRY,” says Malin Frenning, EVP and Head of the Infrastructure Division. “There is great potential for building a strong and professional platform that can set the circumstances needed for the company’s consolidation in the market for further growth by delivering high value and sustainable solutions. I am so happy to have such an experienced leader joining AFRY. Jesper has all the qualities we need to bring the Danish operations to the next level on a common platform.”
