Press release from AFRY

Invitation to AFRY's Capital Markets Day 2020

AFRY (ÅF Pöyry AB) invites investors, analysts and media to a digital Capital Markets Day on Tuesday November 24, 2020 at 13.00-15.30 CET.

Our society is facing extensive changes in the next few years and the demand for digital and sustainable solutions is increasing. AFRY is well positioned to contribute to this development: we have a business that is increasingly focused on transformative segments with long-term growth, in-depth sector knowledge and a strong digitalisation offer. We have established a stable platform for growth and value creation - now we are ready for take-off.

The purpose of the day is to present AFRY's take-off strategy, financial development and sustainability focus, as well as in-depth presentations of a number of focus areas such as infrastructure, clean energy, bio-industry and food & pharma.

In a live-streamed broadcast, there will be presentations by Jonas Gustavsson, President and CEO, Juuso Pajunen, CFO, Marie Trogstam, Head of Sustainability and Malin Frenning, Head of Division Infrastructure, Robert Larsson, Head of Division Industrial & Digital Solutions, Nicholas Oksanen, Head of Division Process Industries and Richard Pinnock, Head of Division Energy.

The presentations will be held in English. The agenda will be presented a week in advance. It will be possible to schedule short meetings with the CEO, CFO, sustainability and division heads.

Welcome with your registration and booking of meetings at [AFRY](#).

A complete program and link to the digital meeting will be made available on [AFRY.com](#) before the event.

Warm welcome!
