

23 June 2021

Press release from AFRY

Stock exchange listing changes from ÅF Pöyry to AFRY

As from 23 June 2021, ÅF Pöyry AB (publ) will be listed under the new name AFRY AB and at the same time the short name (ticker) will be updated to AFRY. The share's ISIN code remains unchanged. AFRY's Class B shares are listed on Nasdaq Stockholm and are included in the Large Cap list.

The change is made following a decision taken at the Annual General Meeting on 3 June, where Tom Erixon was elected as the new Chairman of the Board:

"We are now AFRY in all contexts and it is a nice symbolic start for me as the new Chairman of the Board. Climate challenges are driving tremendous change. This creates great opportunities for AFRY going forward as industrial processes are transformed. A strong brand confirms our position as a global company and strengthens our focus on sustainable solutions," says Tom Erixon.

"After the merger of ÅF and Pöyry in 2019, we are well positioned and our ambition is to be a European leader in sustainable engineering, design and advisory services with a global reach," says Jonas Gustavsson, President and CEO of AFRY.

"In a short amount of time, our AFRY brand has become a symbol for our strong engagement in and knowledge of digitalisation and sustainability. Together with partners like Gapminder, the Norrsken Foundation and the 1.5°C Business Playbook, we highlight the importance of facts and innovation to increase the pace of transition to a sustainable society," says Cathrine Sandegren, EVP and Head of Communications and Brand at AFRY.

New company name: AFRY AB
New short name: AFRY
Unchanged ISIN code: SE0005999836
Unchanged order book ID: 862
