

ChromoGenics receives an order from Fabege to a value of 1,3 MSEK

Real estate company Fabege have chosen ConverLight for project Farao 8 to a value of 1,3 MSEK with an option of additional 3,1 MSEK to be called off 2nd quarter 2019

Fabege want to create a better work environment in this glass property built 2012 by removing the external solar control devices and by that create a building with great view and high comfort for the tenant. By using ChromoGenic products no external solar control devices are needed.

General contractor for the project is Reomti Bygg AB and ChromoGenics is sub-contractor in this case.

"We are very happy that Fabege choses our product. ConverLight will give the building a better energy efficiency and also better comfort and well-being for the tenant", says CEO Jerker Lundgren.

About ChromoGenics

ChromoGenics offers dynamic glass with controllable heat- and light transmission and static glass with world leading performance. The company's unique technology ConverLight® provides sustainable solar control for increased indoor comfort and energy efficiency. ConverLight also contributes to Green Building certifications. In 2016 the company started commercial sales to real estate projects in Scandinavia.

ChromoGenics is located in Uppsala, Sweden, and the technology is derived from the world leading research center at Ångström Laboratory at Uppsala University. The plant has been partly financed by a conditional loan from the Swedish Energy Agency. ChromoGenics share (CHRO) is listed on Nasdaq First North Stockholm with G&W Fondkommission as Certified Adviser.
