

ChromoGenics

ChromoGenics receives an order from Hungary to a value of
SEK 450.000

ChromoGenics has received a High-Performance Glass order for a privately owned exclusive villa property. The property is under production and is located overlooking the Donau River outside Budapest in Hungary.

"We are very pleased that the property owner has noticed ChromoGenics and also prioritized the performance of the glass. There will now be no needs to install external sun protection to cope with the comfort during all four seasons," says CEO Jerker Lundgren.

About ChromoGenics

ChromoGenics offers dynamic glass with controllable heat- and light transmission and static glass with world leading performance. The company's unique technology ConverLight® provides sustainable solar control for increased indoor comfort and energy efficiency. ConverLight also contributes to Green Building certifications. In 2016 the company started commercial sales to real estate projects in Scandinavia.

ChromoGenics is located in Uppsala, Sweden, and the technology is derived from the world leading research center at Ångström Laboratory at Uppsala University. The plant has been partly financed by a conditional loan from the Swedish Energy Agency. ChromoGenics share (CHRO) is listed on Nasdaq First North Stockholm with Certified Adviser: G&W Fondkommission, e-mail: ca@gwkapital.se, tel.: +46 (0) 8 503 000 50 www.chromogenics.com
