

ChromoGenics

ChromoGenics receives an order from Humlegården Fastigheter worth SEK 677,000.

The property Stora Blå is in the city of Solna and previously had 100 windows exchanged with the company's products. Now further exchanges of windows are carried out. After this stage, a total of about 20 percent of the property's windows have been upgraded.

"We are very pleased with the fine collaboration we have with Humlegården Fastigheter and that we continue to receive orders from them," says Jerker Lundgren CEO.

About ChromoGenics

ChromoGenics offers dynamic glass with controllable heat- and light transmission and static glass with world leading performance. The company's unique technology ConverLight® provides sustainable solar control for increased indoor comfort and energy efficiency. ConverLight also contributes to Green Building certifications. In 2016 the company started commercial sales to real estate projects in Scandinavia.

ChromoGenics is located in Uppsala, Sweden, and the technology is derived from the world leading research center at Ångström Laboratory at Uppsala University. The plant has been partly financed by a conditional loan from the Swedish Energy Agency. ChromoGenics share (CHRO) is listed on Nasdaq First North Growth Market with G&W Fondkommission as Certified Adviser e-mail: ca@gwkapital.se, tel.: +46 (0) 8 503 000 50 www.chromogenics.com
