

## ChromoGenics receives two orders to a total value of about SEK 565 000

Our customer Facadeplan AS in Denmark makes an additional order for ChromoGenics' dynamic product of SEK 250 000. An initial smaller order was received and delivered during spring/ summer 2019. In addition, we have received an order for energy upgrade of glass for quarter Sala in Uppsala from Vasakronan to a value of SEK 315 000.

"We are very satisfied that we receive orders from the Danish market and from Vasakronan and that we have materials to deliver despite the strained delivery situation we have had from our subcontractor since summer," says Jerker Lundgren CEO.

### About ChromoGenics

ChromoGenics offers dynamic glass with controllable heat- and light transmission and static glass with world leading performance. The company's unique technology ConverLight® provides sustainable solar control for increased indoor comfort and energy efficiency. ConverLight also contributes to Green Building certifications. In 2016 the company started commercial sales to real estate projects in Scandinavia.

ChromoGenics is located in Uppsala, Sweden, and the technology is derived from the world leading research center at Ångström Laboratory at Uppsala University. The plant has been partly financed by a conditional loan from the Swedish Energy Agency. ChromoGenics share (CHRO) is listed on Nasdaq First North Growth Market with G&W Fondkommission as Certified Adviser e-mail: [ca@gwkapital.se](mailto:ca@gwkapital.se), tel.: +46 (0) 8 503 000 50 [www.chromogenics.com](http://www.chromogenics.com)
