

ChromoGenics

ChromoGenics receives an order from Promad in Strängnäs AB to a value of SEK 1 600 000.

ChromoGenics has received an order for High Performance Glass for a new production of a school in Enköping. Project participants are Kunskapsskolan, S&E Johanssons Fastigheter AB, Kloster Engineering AB and Promad in Strängnäs AB.

“We are very pleased that the project management have prioritized the performance of the glass. The students will have full access to daylight and view all year round. No outside mechanical blinds are needed to cope with the comfort during all four seasons,” says CEO Jerker Lundgren.

About ChromoGenics

ChromoGenics offers dynamic glass with controllable heat- and light transmission and static glass with world leading performance. The company’s unique technology ConverLight® provides sustainable solar control for increased indoor comfort and energy efficiency. ConverLight also contributes to Green Building certifications. In 2016 the company started commercial sales to real estate projects in Scandinavia.

ChromoGenics is located in Uppsala, Sweden, and the technology is derived from the world leading research center at Ångström Laboratory at Uppsala University. The plant has been partly financed by a conditional loan from the Swedish Energy Agency. ChromoGenics share (CHRO) is listed on Nasdaq First North Growth Market with Erik Penser Bank as Certified Adviser e-mail: certifiedadviser@penser.se, phone: 08-463 83 00. www.chromogenics.com
