## ChromoGenics appoints Susann Klippmark as Business Development Manager

5<sup>th</sup> November 2021

**ChromoGenics expands their organization by appointing Susann Klippmark as Business Development Manager. Susann has 13 years of experience of working in the energy industry and has been a part of building multiple different companies and departments. Now she is ready to develop ChromoGenics.**

Susann Klippmark has previously worked as a Sales Manager and has experience from industries such as construction, facade, glass and windows. She has taken part in projects such as for examples Hammarby Sjöstad, Norra Djurgårdsstaden and Hagastaden.

Susann thinks it is going to be exiting to be a part of the company's progress and means ChromoGenics products are essential to where the world is today. "I believe that many property owners are interested in this type of solution for energy efficiency and improved indoor comfort in real estate. It is essential that we are innovative to be able to establish sustainable solutions", says Susann Klippmark.

*"We are increasing the capacity in our own production, the pace of our sales and marketing and accelerating the transformation towards an industrial company. We are delighted that we have been able to recruit Susann to ChromoGenics. With her broad industry experience and knowledge, she will immediately contribute to our sales and marketing departments", says Fredrik Fränding, CEO at ChromoGenics and is pleased with the recruitment.*

This statement has been made in a Swedish and English version. In the event of any discrepancies between the Swedish and English text, the Swedish text shall prevail.

### **About ChromoGenics**

ChromoGenics is a proptech company that produces dynamic glass for real estate. The company's product ConverLight® Dynamic, controls indoor comfort with high daylight transmission, great view and solar heat blocking and thereby reduces cost of cooling. ConverLight® Dynamic is based on a patented solution where electrochromic coatings are laminated in plastic film and then laminated between glass. The plastic film is easy to transport, so long shipments of bulky glass can be avoided. ChromoGenics also offers static glass, ConverLight® Static, and the ConverLight® Energy facade glass solution. ChromoGenics' stock was listed on Nasdaq First North Growth Market in 2017 and has supplied glass technology to several major real estate companies.

ChromoGenics originates from world-leading research at Ångströmlaboratoriet at Uppsala University. The company's production facility in Uppsala has been partially financed with conditional loans from Energimyndigheten (Energy Authority) in Sweden. ChromoGenics' share (CHRO) is listed on Nasdaq First North Growth Market with Erik Penser Bank as Certified Adviser: certifiedadviser@penser.se, 08-463 83 00.
