About ChromoGenics

ChromoGenics is a proptech company that produces dynamic glass for real estate. The company's product ConverLight® Dynamic, controls indoor comfort with high daylight transmission, great view and solar heat blocking and thereby reduces cost of cooling. ConverLight® Dynamic is based on a patented solution where electrochromic coatings are laminated in plastic film and then laminated between glass. The plastic film is easy to transport, so long shipments of bulky glass can be avoided. ChromoGenics also offers static glass, ConverLight® Static, and the ConverLight® Energy facade glass solution. ChromoGenics' stock was listed on Nasdaq First North Growth Market in 2017 and has supplied glass technology to several major real estate companies.

ChromoGenics originates from world-leading research at Ångströmlaboratoriet at Uppsala University. The company's production facility in Uppsala has been partially financed with conditional loans from Energimyndigheten (Energy Authority) in Sweden. ChromoGenics' share (CHRO) is listed on Nasdaq First North Growth Market with Erik Penser Bank as Certified Adviser: certifiedadviser@penser.se, 08-463 83 00.
