

## IRLAB presents at the 2019 International Congress of Parkinson's Disease and Movement Disorders

**IRLAB announced today that Prof. Per Svenningsson, on behalf of IRLAB, will be presenting a poster titled "A phase IIa trial studying the safety and tolerability of IRL752 in patients with Parkinson's disease dementia" at the 2019 International Congress of Parkinson's Disease and Movement Disorders in Nice, France. The presentation will be held on Monday, September 23.**

The 2019 International Congress of Parkinson's Disease and Movement Disorders is held on September 22-26 and aims to encourage sharing ideas among those involved in the care and research of movement disorders to advance the related clinical and scientific discipline. Congress audience will include clinicians, researchers, healthcare professionals, post-doctoral fellows, medical residents and medical students with an interest in the current research and approaches for the diagnosis and treatment of movement disorders.

Nicholas Waters, CEO at IRLAB, commented "Prof. Svenningsson is an outstanding researcher and we are glad to be working closely with him. It is great to get this type of recognition in the medical community and it is a privilege to be selected to present at the congress, which also means that our data caught the interest of the congress committee among many other abstract submissions."

### About IRLAB

IRLAB is a Swedish biotech company focused on Parkinson's disease. The company's clinical Phase 2 candidates, IRL752 and IRL790, intend to treat some of the most difficult symptoms related to Parkinson's disease: involuntary movements (LIDs), psychosis and dementia. Through the proprietary ISP (Integrative Screening Process) research platform, IRLAB discovers and develops drug candidates for central nervous system (CNS) related diseases where big growing medical needs exist. In addition to the clinical candidates, the ISP platform has also generated several CNS programs that are now in preclinical phase. IRLAB's Certified Adviser on Nasdaq First North Growth Market is FNCA Sweden AB, [info@fnca.se](mailto:info@fnca.se), +46 (0)8-528 00 399. More information on [www.irlab.se](http://www.irlab.se).
