## Instalco companies sign new framework agreement with JM

**The Instalco companies, PoB:s Elektriska and El-Pågarna have, jointly, signed a new 3-year framework agreement with JM for electrical installations in conjunction with future construction projects.**

JM is expanding its collaboration with PoB:s Elektriska and the new framework agreement gives JM the opportunity to engage the company for electrical installations on a regular basis during the 3-year contract period. The estimated value of the total volume is approximately SEK 350 million.

“We’re very happy and proud that JM has renewed its confidence in us. It is confirmation of our success, over many years, of delivering in accordance with JM’s high expectations,” says Anders Eriksson, CEO of PoB:s Elektriska.

Since the end of the 1980s, PoB:s Elektriska has worked in close collaboration with JM as a supplier of electrical installations in conjunction with new housing construction.
