

PRESS RELEASE
7 March 2019 09:45 (EET)

Runegate Heroes public soft launch started

Nitro Games announced the public soft launch has started for Runegate Heroes in 4 countries.

"We're happy to announce that we've now started the public soft launch with Runegate Heroes. We've crafted a new version of the game and are now welcoming players in selected countries to be the first to dominate the leaderboards." says Jussi Tähtinen, CEO & Co-Founder, Nitro Games Oyj.

The purpose of this soft launch is to validate the game performance on selected markets, while the team is further developing the game and adding new content. The game is now available on the Apple App Store in the United States, Canada, Sweden, and Finland. The long-term potential of the game is being evaluated during this soft launch and the next steps with the game will be determined based on the results of this. This soft launch follows Nitro Games' strategy, where the company is building a portfolio of games to be self-published.

Runegate Heroes is a competitive multiplayer game on mobile. Players build their team of Heroes to challenge other players in real time. The game requires tactical skills as players defend their towers and the portal known as Runegate, while leading the charge of their heroic team to counter the enemy summons and destroy the enemy Runegate.
