Nitro Games signs games partnership agreement with a leading social media platform

With this new agreement, Nitro Games becomes part of an invite-only program to provide a leading social media platform (“Platform”) with instant game content to be promoted for the users of the Platform.

This agreement follows Nitro Games’ strategy, by enabling Nitro Games to continue expanding its mobile game portfolio to new platforms. Providing instant game content to the Platform means that the users of the Platform can access the game instantly on the Platform after seeing the promotion for it, without having to exit the app and download it from a third-party service. Nitro Games acts as the developer of the game and the Platform promotes the game for their userbase. Neither party will pay any fees to the other party in connection with this promotion.

“This partnership agreement is well in line with our roadmap for this year with the increased focus on our game portfolio. We are excited about the growing number of future opportunities with instant games on the social media platforms,” says Jussi Tähtinen, CEO of Nitro Games.
