Nitro Games opened up the pre-registration for a new upcoming mobile game focused on the NERF blasters by Hasbro, a global play and entertainment company.

Nitro Games Oyj has opened the pre-registration period for a new mobile game: **NERF: Superblast**. The purpose of this pre-registration is to allow players to sign up to be notified when the game is available. Players can pre-register at game website: [www.nerfsuperblast.com](http://www.nerfsuperblast.com)

The game is a first-person multiplayer action game featuring the incredibly popular NERF blasters by Hasbro. Players engage in fun matches against other players using their NERF blasters, and blast their way through exciting interactive arenas. The game features several lines of NERF blasters, each with their unique play style, that players can collect and upgrade. All in-game blasters are based on and behave in the same way as, their real-life toy counterparts.

Nitro Games acts as the developer and publisher of the game, and Hasbro acts as the Licensor of the brand. Nitro Games had previously, on 10 December 2020, announced that it is developing an upcoming game with an exclusive license to the NERF brand by Hasbro.
