Nitro Games signs development agreement with Starbreeze

Nitro Games has signed a development services agreement with Starbreeze to work on one of their games.

With this agreement, Nitro Games provides Starbreeze with game development services for one of their games.

“This is a great opportunity for us to start our collaboration with Starbreeze. We often start small with new partners, and that’s also the case here.” says Jussi Tähtinen, CEO & Co-Founder of Nitro Games.

This agreement follows Nitro Games’ strategy, where in addition to developing games based on its own IP, the company also offers its services to selected customers. The order value of this new agreement is not significant. The agreement follows an industry-standard structure. The project starts immediately and is expected to be completed in 2025.
