Nitro Games signs development agreement with VOID Interactive

Nitro Games has signed a development services agreement with VOID Interactive.

With this agreement, Nitro Games will provide VOID Interactive with game development services.

“We’re thrilled to collaborate with VOID Interactive and to have the opportunity to contribute to a team that aligns with our focus on action games. While this is a small engagement for us, it’s a great way to showcase our capabilities to a new partner in a genre we’re passionate about” says Jussi Tähtinen, CEO & Co-Founder of Nitro Games.

This agreement follows Nitro Games’ strategy, where in addition to developing games based on its own IP, the company also offers its services to selected customers. The order value of this new agreement is not significant. The agreement follows an industry-standard structure. The project starts immediately and is expected to be completed in 2025.
