H&D Wireless receives first volume order from Macnica

[Stockholm, Sweden 29th October, 2018] **H&D Wireless, Swedish leading supplier of IoT connectivity and IoT Cloud and RTLS Platform solutions, receives first volume order from Macnica on SPB228 WiFi/BT module with a market value of 47 KUSD. H&D Wireless and its Business Unit Connectivity have a collaboration agreement with Macnica for distribution of HDW wireless modules for the European IoT market and it will be used in Mobility assistance.**

“We are very happy to have received this first volume order for SPB228 from Macnica, it validates our new strategic Product family of Accelerate©. The design-in process has been very fast since the module SPB228 was released to market during CES2018 in January, and we have today already more than 28 customers design-ins with this module and now two in volume production”, says Pär Bergsten, CEO and founder of H&D Wireless.

The total wireless module market is expected to grow by 20% annually to 29 billion units in 2022, according to Ericsson's mobility report.
