

## **Fidesmo and Bravida partner to bring wearables to Bravida's access system**

Stockholm, 31st January 2018 – **Fidesmo, a contactless technology company, and Bravida, a leader in access control systems, announce their partnership to bring more flexibility and choice to users. This collaboration enables the use of watches, cards and other gadgets connected to Fidesmo as the key carrier in Bravida's customers access systems.**

"We look forward to this cooperation, where Bravida's customers can use Fidesmo's ecosystem of wearables and cards. The user will be able to decide which card or gadget they wish to use as an access card, as long as the gadget connects with Fidesmo. It also makes it easier for employers to connect third party services to their employees access cards", says Mattias Eld, CEO of Fidesmo.

"This collaboration shows that Bravida is at the forefront of technology and sees the opportunities. With Fidesmo's open platform, we enable our users to be able to safely choose what holds keys for access to the office and still maintain the highest level of security. Bravida has delivered encrypted tokens (through plastic cards) with customer-unique keys to its Passover Control System Integra for 10 years. With Fidesmo, Bravida's service portfolio is complemented with a highly flexible solution enabling wearables to be used by customers of Bravida's Integra Passenger System", says Jonas Ahlgren, Product Manager, Bravida.

### **About Fidesmo**

Fidesmo makes it possible to add payment and other contactless services, such as public transport tickets, office/hotel keys, and loyalty schemes, to a single card or wearable.

Fidesmo provides a streamlined integration process for manufacturers to add contactless services to their devices and for contactless service providers to distribute their services without any hardware overhead to many devices. The company has been recognized as a Mastercard Approved Global Vendor, is included in the Mastercard Engage IoT Directory and among their customers are Telia Company and Sunfleet.

Fidesmo was founded in 2013 and has its headquarters in Stockholm and R&D offices in Madrid. Read more at [fidesmo.com](http://fidesmo.com).

### **About Bravida**

Bravida is the market leader in the Nordics within large and complex access control systems. To date, Bravida has delivered more than 100,000 card readers, in systems ranging from 1 - 5,000 units. The strength of the system lies within its ability to administer large staff flows in larger companies and organisations as well as smaller scale organisations with transparent management in small, simple solutions.
