Inhalation Sciences' CEO at Redeye Life Science Day 2023

Join Inhalation Sciences AB (ISAB) CEO Manoush Masarrat for a 2-minute company pitch and 20-minute analyst Q&A at the livestreamed Redeye Life Science Day, November 23, 2023.

ISAB has achieved robust growth for sales of its unique, high-precision platform technology and Inhalation Research Services (IRS), with a Q2 revenue increase of 36% compared to the same period last year, and a 500% growth in signed sales orders compared to the same period in the preceding year.

Manoush will be joining a host of other Nordic Life Science executives at the event.

Don't miss the opportunity to learn more about ISAB's recent achievements and developments - explore Life Science Day 2023 here:

About Inhalations Sciences Sweden AB (publ)

Inhalation Sciences Sweden AB (publ) develops and commercializes world-leading instruments and services for research into inhalation. The company's patented lab instruments PreciseInhale® and DissolvIt® enable researchers in the pharma industry to make drug pipeline decisions at an early stage, saving time and resources for R&D departments, and enables researchers in academic institutions to define how aerosols and small particles impact our lungs, and so our health, when being inhaled.
