

**Press release**  
13 December, 2018

## **Realfiction delivered Magic-as-a-Service for Lexus at prime event in Miami**

**Realfiction Holding AB ("Realfiction") announces that luxury car manufacturer Lexus used a DeepFrame Mixed Reality solution to present its new LF-1 Limitless Future Concept Vehicle at the Design Miami event on December 5-9.**

The installation, titled *The Future is Limitless*, combined the actual prototype car with a Mixed Reality digital overlay provided through the DeepFrame display. Lexus had a strong presence at the event as its official automotive partner, and the DeepFrame installation was used to highlight the brand's ability to combine technology, innovation and the latest evolution of design.

The Lexus installation at Design Miami is one of the four "upcoming Magic-as-a-Service (MaaS) orders for premium events in North America" that were mentioned in the press release previously published on December 4. Each of the events are now being presented with customer names and detail in separate press releases as the information becomes public.

More information on the annual Design Miami event can be found at [miami2018.designmiami.com](http://miami2018.designmiami.com).
