

Netmore Group and Swegon partner to secure solid digital climate solutions for connected properties

Stockholm, 20240118 — Netmore Group, Pan-European LoRaWAN Operator, has partnered with Swegon, a leading specialist in indoor climate solutions. Netmore's LoRaWAN city network technology will provide a solid technical network to Swegon, enhancing the digitalisation of real estates throughout Europe.

Enhanced indoor climate solutions enabled by Netmore LoRaWAN

Swegon will utilize Netmore's LoRaWAN city network technology to monitor and control indoor environments. The initiative involves deploying various sensors for temperature, humidity, CO2, and particle measurement, integrating with Swegon's software systems. These solutions are aimed at enhancing conditions in diverse settings, including offices, factories, and commercial spaces.

Improving health and productivity in indoor spaces

A key aspect of the partnership is the focus on leveraging LoRaWAN technology to secure the communication from the sensors when measuring the indoor environments, marking just the beginning of its potential applications. Hence, Netmore's LoRaWAN solution is a key enabler for scaling Swegon's suite of building applications that enhance the occupants' well-being, reduce energy consumption and provide real time data for environments that require continuous monitoring. The use of LoRaWAN in this context demonstrates its versatility and efficacy related to indoor climate applications, setting the stage for further innovations in this area.

Strategic collaboration for European expansion and future innovation

This partnership not only facilitates Swegon's expansion of their indoor climate solutions across Europe but also highlights Netmore's Pan-European expansion, significantly widening the market reach for its clients within the ecosystem. A key feature of Netmore's LoRaWAN offering is this ability to extend market access on a Pan-European scale, distinguishing it from many other operators. This strategic collaboration underscores the commitment of both companies to innovation in managing and optimizing indoor environments, while also providing a robust platform for future technological advancements.

Eric Collinder, Country Manager Nordics at Netmore Group AB, stated, "*Our partnership with Swegon represents a significant advancement in connected real estate in the Nordics. Our technology's role in powering Swegon's digital indoor climate solutions is in line with our dedication to value-driven real estate digitization.*"

Magnus Andersson, Business Unit Manager - Digital Services at Swegon Operations AB, said, "*Our partnership with Netmore is fundamental to providing a solid technical network for connected properties. It enables us to deliver comprehensive indoor climate monitoring solutions, helping property owners in the Nordics to enhance*

sustainability and optimize indoor spaces."
