Gaming Innovation Group Inc. (GiG) has today signed a long term contract with Casino Win, one of Hungary's leading land-based casino operators, for the provision of GiG's platform, frontend development and managed services to launch their digital operation in the regulated Hungarian market.

Casino Win has been present in the Hungarian gambling market since 2016, and has always prioritised their players to ensure that they receive the highest possible levels of service, coupled with the latest gambling equipment and technology to provide the best gaming experience there is.
