This allows the Company to continuously develop its sustainability efforts in line with the demands of its stakeholders, to support the share price development of the Company's shares and to strengthen the Company's trademark. By extension, this may lead to lower financing costs, as a result of a lower risk grading and due to the sustainability efforts generating a surplus in terms of risk reduction, control and business opportunities.

Decision-making process for establishing, reviewing and applying the guidelines

The Board of Directors has established a Remuneration Committee consisting of three members of the Board of Directors appointed by the Annual General Meeting. The Committee is tasked with the preparation of the Board of Directors' proposal for remuneration guidelines for senior executives. The Board of Directors shall prepare proposals for new remuneration guidelines when material changes are required or, at least, every fourth year and present the guidelines for the General Meeting to resolve on. The guidelines shall apply from the approval by the General Meeting, until new guidelines have been resolved upon by the General Meeting (and for a maximum of four years). The Remuneration Committee may seek approval of new guidelines at an earlier point in time if circumstances arise that effect the purpose of the guidelines.

The Remuneration Committee shall also follow-up and evaluate programmes for variable remuneration to senior executives, the application of the remuneration guidelines and current remuneration structures and levels within the Company.

The Remuneration Committee's members are independent in relation to the Company and the group management.

Consideration of salary and employment terms for employees

In the Remuneration Committee's preparation of the Board of Directors' proposal for remuneration guidelines, information on total remuneration for employees, the components of the remuneration and increases of the remuneration, as well as the rate of increases over time, has been considered and forms a part of the basis for the Remuneration Committee's and the Board of Directors' decisions when preparing and evaluating the fairness of the guidelines and the limitations they impose. The difference between the remuneration for senior executives and the remuneration for other employees will be disclosed in the yearly remuneration report.

Forms of remuneration

The remuneration guidelines imply that the remuneration shall be based on the role, individual performance as well as the Group's results, and that the remuneration must be competitive in the country of employment. The total remuneration to the group management shall consist of fixed salary, variable salary in the form of short-term incentive based on yearly performance targets as well as pensions and other benefits. In addition to the aforementioned, certain terms for termination of employment and severance pay apply. The General Meeting may also – independent of the remuneration guidelines for senior executives – resolve on, for instance, share- and share price-related remuneration.

Fixed salary

Fixed salary shall be the basis for the total remuneration. The salary shall be based on the relevant market and reflect the responsibilities that the role entails.

Variable salary (STI)

Members of the group management shall, in addition to the fixed salary, be entitled to STI. STI shall be based on the financial results for the Group and/or the business unit that the member of the group management is responsible for. Financial targets to be used are organic growth, financial results and

cash flow. In addition, performance indicators may be used to highlight matters of importance to the Company. Clearly defined targets for “threshold”, “target” and “stretch” levels for performance shall be determined in the beginning of each year and shall reflect strategies adopted by the Board of Directors. By applying pre-determined and measurable financial and non-financial targets and performance indicators reflecting the Company’s business priorities, the Company considers the possibilities of attracting, motivating and retaining key employees to increase, which contributes to the Company’s business strategy, long-term interests and sustainability.

At the end of the evaluation period for meeting criteria for payment of STI, an assessment shall be made of to what extent the criteria has been met. The Remuneration Committee is responsible for making such assessment with respect to STI to the CEO and other senior executives.

Before payment of variable remuneration is made, the Board of Directors shall determine whether the results of the assessment are reasonable, taking into account the Company’s financial results and financial position.

STI may amount to a maximum of 60 percent (“stretch”) of the fixed salary for the CEO and other members of the group management.

Pensions and other benefits

Pensions shall be defined contribution. The age of retirement follow the country specific pension rules. Pensions may amount to a maximum of 30 percent of the fixed salary entitling to pension for the CEO and other senior executives. Other benefits may include, inter alia, car benefits. Other benefits shall amount to a maximum of 10 percent of the fixed salary for the CEO and other senior executives.

Notice of termination and severance pay

For the CEO and other members of the group management, mutual notice periods of 6 months shall apply as a general rule. The CEO and other members of the group management shall, upon termination of their employments by the company, be entitled to severance pay amounting to not more than 12 months’ fixed salary. No severance payment will be made when the employment is terminated by the employee or when the employee has been in breach of its employment agreement.

Information on share-related long-term incentive programmes

Handicare has established long-term share-related incentive programmes. The programmes has been adopted by the Annual General Meeting and is therefore not covered by the remuneration guidelines. The programs cover, inter alia, the CEO and other members of the group management as well as other key employees, who are nominated based on, inter alia, competence and performance. The outcome of the programmes are dependant on the price of the Company’s shares and is therefore clearly linked to the business strategy and the company’s long-term value creating strategy, including sustainability, as well as creates community of interests between the participant and the Company’s shareholders. More information on these programmes, including the criteria determining the outcome, is available at the Company’s webpage, www.handicargroup.com

Authority for the Board to deviate from the principles

The Board of Directors may decide to temporarily, wholly or partially, deviate from the guidelines if there are special circumstances in an individual case and deviation is necessary in order to secure the

Company's financial capacity. As stated above, the Remuneration Committee is responsible for preparation of the Board of Directors resolutions on matters relating to remuneration, which includes resolutions on deviation from the remuneration guidelines.

Resolution regarding adoption of a long-term incentive program through (A) directed issue of warrants and (B) approval of transfer of warrants (Item 16)

The Board of Directors proposes that the annual general meeting of in Handicare Group AB (publ) (the "Company") resolves to adopt an incentive programme for senior executives by (A) a directed issue of not more than 1,198,370 warrants of series 2020/2023 to a wholly owned Swedish subsidiary of the Company (the "Subsidiary") or the Company (the Subsidiary or the Company, as applicable, the "LTIP Company") as set forth in item A below and (B) transferring the warrants issued from the LTIP Company to certain senior executives in the Group where the Company is the parent company (the "Group") as set forth in item B below. In total, the incentive program will be directed to not more than 17 individuals.

The incentive program entails that senior executives, who have entered into an agreement with the LTIP Company (the "Agreement"), are offered to acquire warrants at market value, calculated as set forth below.

Each warrant entitles the holder to subscribe for one (1) new share in the Company. The warrants have an exercise price per share corresponding to 126.0 per cent of the volume-weighted average of the Company's closing price 10 trading days following the annual general meeting on 6 May 2020, but may not be lower than the quotient value of the share.

Each warrant entitles to subscription of one new ordinary share in the Company during the following subscription period: 15 May 2023 – 17 June 2023.

The warrants shall be transferred on marketable terms at a price (premium) determined on the basis of a calculated market value for the warrants at the time of the transfer, using the Black & Scholes valuation model calculated by an independent valuation institution. The value has been preliminarily estimated to SEK 2.07 per warrant, based on a share price of SEK 20 per share.

The complete terms and conditions for the warrants have been resolved by the Board of Directors and are presented in the Board of Directors' complete proposal.

Allocation of warrants

Not more than 17 senior executives in the Group (the "Participants") shall, provided that they have entered into the Agreement with the LTIP Company, be entitled to acquire warrants up to the maximum number of warrants as set out below.

Position	Number of Participants (maximum)	Number of warrants per Participant (maximum)	Total number of subscription warrants (maximum)
CEO	1	272 657	272 657
CFO	1	133 299	133 299

Management team	6	99 714	598 284
Other key personnel	9	21 570	194 130

Each Participant may acquire its maximum number of warrants as set out above.

Redemption of warrants

In connection with the Participants' acquisition of warrants in the program, the LTIP Company has, in the Agreement, reserved the right to, under certain circumstances, redeem warrants if a Participant's employment or assignment in the Group ceases or if the Participant wishes to transfer its warrants before they can be exercised.

Subsidy

The LTIP Company or another company in the Group will subsidise 50 percent of the amount that a Participant in the incentive programme shall pay for the warrants. If a warrant holder's employment within the Group is terminated before the warrants are exercised and the LTIP Company decides to repurchase the warrants pursuant to the terms of the Agreement, the warrant holder shall repay the subsidy according to the following.

If the LTIP Company acquires the warrants before 6 May 2021, the warrant holder shall repay the entire subsidy. If the LTIP Company acquires the warrants on or after 6 May 2021 but before 6 May 2022, the warrant holder shall repay two thirds of the subsidy. If the LTIP Company acquires the warrants on or after 6 May 2022 but before 6 May 2023, the warrant holder shall repay one third of the subsidy. If the LTIP Company acquires the warrants thereafter, no repayment shall be made. In cases where the warrant holder is obligated to repay the subsidy, such payment shall be executed through set-off of the redemption amount for the warrants to be paid by the LTIP Company at redemption of the warrants. However, the repayment of the subsidy shall not exceed the redemption amount for the warrants, which means that the warrant holder shall not be required to repay a higher sum than the market value of the warrants if the market value of the warrants at the time for the LTIP Company's repurchase is lower than the subsidy.

Effect on important key ratios and dilution

The incentive programme is expected to have a marginal effect on the Company's financial ratios. Based on the number of shares in the Company as of the date of the notice to the annual shareholders' meeting, the dilution effect of the warrant program will not exceed 2.0 percent. The Company's earnings per share for 2019 would have decreased from EUR 0.0398 to EUR 0.0390 as a result of a corresponding dilution.

Costs

The Company's costs for the incentive programme consists of social security costs on any potential warrant profit that Participants in the programme in certain jurisdictions make, as well as the cost of the payment of the subsidy (including related social security costs) in all jurisdictions.

The total cost for the incentive program is dependent on the outcome of the programme. Assuming that the market price of the Company's share increases by 15.0 percent compared to a share price of SEK 20 per share, the cost for the program is estimated to amount to SEK 2.48 million.

The rationale for the incentive program

The rationale for the incentive program is to provide employees of the Group the opportunity to obtain a remuneration related to and dependent on the increase in value which they contribute, as well as to attract, motivate and retain key employees within the Group. The Board of Directors is of the opinion that it is to the benefit of the Company and the shareholders that the employees are given a personal incentive through ownership.

Preparation of the proposal

In accordance with guidelines provided by the Board of Directors, the incentive program has been prepared by the Company's Board of Directors and its remuneration committee together with advisors, and has been reviewed at meetings of the Board of Directors in first quarter of 2020.

Other incentive programs

For a description of the Company's other equity-related incentive programs, reference is made to the annual report for 2019.

Majority requirement

A resolution to approve the incentive program is valid only where supported by shareholders holding not less than nine-tenths of both the shares voted and of the shares represented at the shareholders' meeting.

5. Upon acquisition of the warrants, the Participants shall enter into the Agreement with the LTIP Company.
6. The warrants shall be transferred on marketable terms at a price (premium) determined on the basis of a calculated market value for the warrants at the time of the transfer, using the Black & Scholes valuation model calculated by an independent valuation institution. The value has been preliminarily estimated to SEK 2.07 per warrant, based on a share price of SEK 20 per share.
7. To be entitled to acquire warrants from the LTIP Company, the person determined by the Board of Directors shall, at the time of the acquisition, be employed in the Group and neither have terminated its employment or have been terminated.
