Financial performance

Business model

The combined Groups' activities focus on international freight-forwarding services and US domestic services primarily by Air, Ocean, and Road, with supporting IT, logistics and road freight services. Most of the revenue base originates from large customers contracted via corporate initiatives. Each Group primarily provides services to its customers via their own network of offices supported by a close partnership with each other and with other key agents worldwide.

SGLT Holding financial review

The Q1 2020 financial performance includes the operating results of SGLT Holding, including newly acquired businesses and activities such as activities in Scan Global logistics Co. Ltd. (Cambodia) (acquired 1 January 2020), Pioneer Logistics (acquired 15 January 2020), and Utah Specialised Transportation, LLC (now owned 100% as TransGroup Global Inc. acquired the remaining 49% shares from the minority shareholder in 2020).

Total revenue in the first quarter (Q1) 2020 was USD 264.4 million, which is an increase of 4% compared to Q1 2019 despite a negative impact by USD 5 million due to FX translation.

The acquisitions made in Q1 2020 have contributed by USD 13 million. The organic growth was 1% after the negative impact from FX translation.

The gross profit amounted to USD 44.5 million, equivalent to an increase of 11% compared to Q1 2019, however negatively impacted by FX translation of USD 1 million.

SG&A costs amounted USD 34 million in Q1 2020 and increased by 16% compared to Q1 2020. SG&A costs were 13% of the revenue compared to 11% of revenue in Q1 2019. The increase is derived from increased staff costs mainly influenced by the acquisitions made in 2019 and 2020, and green field activities in Peru, Myanmar, Belgium and the Netherlands.

EBITDA before special items was negatively impacted by FX translation of USD -0.2 million.

Depreciation and amortisation amounted to USD 7 million in the first quarter of 2020, compared to USD 6 million in the first quarter of 2019. The increase is primarily explained by increased tangible assets and right of use assets from acquisitions, but amortisation of intangible assets from acquisitions has a minor impact as well.

In first quarter of 2020 special items amounted to USD 2 million, which included COVID-19 related costs, green field activities and M&A activities.

Net financial expenses amounted to USD 3.9 million in Q2 and were mainly comprised of interest on the bond debt and interests on lease liabilities.

Financial performance (continued)

Cash Flows

Cash outflows from operating activities before special items, interest & tax in Q1 were negative USD 18 million mainly due to negative development in working capital of USD 21 million, though impacted by special project payments of combined approx. USD 11 million impacting the change in net working capital negatively.

CAPEX for Q1 2020 amounts to USD 1.1 million and comprised mainly investments in software and development of IT projects securing the infrastructure necessary for continued long-term growth.

Cash outflow from acquisitions amounted to USD 11 million.

Cash flow from financing activities included dividend paid to non controlling interests in TransGroup at a value of USD 1 million. Redemption of the leasing debt amounted to USD 4 million.

Capital structure

The equity attributable to the Parent company was USD 133 million. The total equity ratio was 23.8% as per 31 March 2019. By the end of March 2019 the total liquidity reserve was equal to USD 38 million.

Net interest bearing debt (NIBD)

Revenue

The consolidated revenue was DKK 1,102 million for Q1 2020, compared to DKK 959 million in Q1 2019, equivalent to an increase of 15%. The increase is mainly driven by businesses acquired (BK Spedition GmbH, IC Group activities and Scan Global Logistics Spain S.L and Pioneer International Logistics Pty Ltd.) which in total contributed in a year-over-year revenue growth of DKK 90 million in the first quarter of 2020, resulting in an organic growth of 5%.

Gross profit

In the first quarter of 2020, the gross profit amounted to DKK 191 million, corresponding to a gross margin of 17.3% which is a 0.4 percentage points decrease compared to the first quarter of 2019. This decrease was primarily driven by the Ocean and Road activities in the Nordic region as well as by lower Automotive activities due to COVID-19. A strong development within E-Commerce and Asia had a positive impact to the gross profit.

SG&A cost

SG&A costs amounted to DKK 156 million in the first quarter of 2020, equivalent to an increase of 20% compared to first quarter of 2019. The increase is derived from increased staff costs mainly influenced by the acquisitions made in 2019 and 2020, and green field activities in Peru, Myanmar, Austria, Belgium and The Netherlands.

SG&A costs comprise 14% of revenue in the first quarter of 2020, on par with the first quarter of 2019.

Financial performance (continued)

EBITDA before special items

EBITDA before special items amounted to DKK 35 million in the first quarter of 2020, equivalent to an EBITDA margin before special items of 3.2%. The decrease in the margin was primarily driven by the Ocean and Road activities in the Nordic region as well as by Automotive activities derived from acquired businesses relative to 2019.

EBITDA before special items and excluding IFRS 16 amounted to DKK 15 million, equiavlent to an EBITDA margin before special items and excluding IFRS 16 of 1.4.

Depreciation and amortisation

Depreciation and amortisation amounted to DKK 35 million in the first quarter of 2020, compared to DKK 24 million in the first quarter of 2019. This increase is primarily explained by IFRS 16 depreciations relating to acquired businesses but amortisation of intangible assets from acquisitions has an impact as well.

Special items

In first quarter of 2020 special items amounted to DKK 13 million, which included COVID-19 related costs, green field activities and M&A activities.

Financial items

Net financial expenses amounted to DKK 11 million in the first quarter of 2020 compared to DKK 10 million in the first quarter of 2019. Net financial expenses mainly comprised of interest expenses on the bond debt, including capitalised loan costs recognised in the income statement as well as an impact of IFRS 16 interest expenses (IFRS 16: 2020: DKK 3.3 million and 2019: DKK 2.6 million) offset by the interest income from the intercompany loan to Transgroup Global Inc. (the parent company of Transgroup). Please refer to note 6 and 7 for further information.

Cash Flows

For first quarter 2020 the accumulated cash flow from operating activities before special items, interests and tax was negative DKK 39 million, mainly driven by negative working capital movements. We have improved our working capital over the first quarter of 2020; however, the negative working capital movement of DKK 62 million is a result of a special project payments of combined approx. DKK 72 million.

CAPEX for Q1 2020 amounts to DKK 11 million and comprised mainly investments in software and development of IT projects securing the infrastructure necessary for continued long-term growth.

The cash out-flow from acquisitions excluding transactions costs amounted to DKK 49 million.

Capital structure

The total equity was DKK 548 million with an equity ratio of 16.6% as at 31 March 2020. The equity ratio excluding the impact of IFRS 16 was 17.5% and decreased by 7.6 percentage points compared to 31 March 2019.

Financial performance (continued)

Net interest bearing debt (NIBD) and liquidity reserve

Consolidated net interest bearing debt amounted to DKK 1,202 million as at 31 March 2020. The total liquidity reserve was DKK 87 million by end of March 2020. See note 5 for further information.

Acquisitions in 2020

SGL Group continues its acquisition strategy to look at acquisition opportunities with a good strategic fit and available at the right price, and target great acquisition opportunity which will scale-up the business, increase profitability, and secure a downtrending leverage ratio.

Effective 1 January 2020, the Group acquired activities in the Cambodian based freight forwarder Scan Global Logistics Co., Ltd. (Cambodia). Previously the Cambodian company has acted as an agent for SGL Group. In Q1 2020 the acquired activities generated revenue of DKK 3 million and EBIT of DKK 0.8 million.

acquisition, including full effect from identified synergies, is estimated to have a positive EBITDA contribution of approximately AUD 2.7 million annually. The acquisition has been partly financed by the proceeds from the subsequent bond issue and partly by a reinvestment of existing shareholders of Pioneer. The company generated revenue of DKK 27 million and EBIT of DKK 2 million.

Significant risks

The significant risks remain the same as mentioned in the SGL TransGroup Internation A/S Annual report for 2019, which can be found https://www.scangl.com/media/2250/sgl-transgroup-international-annual-report-2019-published-29042020.pdf.

Outlook

It is not possible to allocate assets (excluding goodwill, customer relations, trademarks, and other intangible assets) and liabilities to the four segments identified, as these assets and liabilities serve all segments.

The core business of SGL Group is within the Air and Ocean segments, whereas the Road and Solution business units are relatively small in a Group context and are primarily within a limited geographical area (Denmark and Sweden). The project business of SGL Group is also within the Air and Ocean segments. Consequently, goodwill, customer relations, trademarks and other intangible assets are primarily allocated to the Air and Ocean segments.

Goodwill, customer relations and trademarks were tested for impairment with no indication of impairment as at 31 December 2019. There has subsequently been no indication of impairment.
