

DOF Subsea awarded multiple contracts across the North America Region

DOF Subsea is pleased to announce multiple contract awards from undisclosed clients across the North America region.

The Group has secured contracts for pre-lay and LBL array installation activities in Guyana, subsea installation work in Trinidad and well-head removal work in Canada. All three contract awards will utilise Skandi Neptune.

The Harvey Deep Sea has received an award for a large Ocean Bottom Node survey in the GoM, in addition to other shorter IMR and light construction projects. The awards will ensure good utilisation across the first half of the year for the vessel.

With a multi-national workforce of about 3,500 personnel, DOF ASA is an international group of companies which owns and operates a fleet of modern offshore/subsea vessels, and engineering capacity to service both the offshore and subsea market. With over 35 years in the offshore business, the group has a strong position in terms of experience, innovation, product range, technology and capacity.

DOF's core businesses are vessel ownership, vessel management, project management, engineering, vessel operations, survey, remote intervention and diving operations primarily for the oil and gas sector. From PSV charter to Subsea engineering, DOF offers a full spectrum of top quality offshore services to facilitate an ever-growing and demanding industry.

The company's main operation centers and business units are located in Norway, the UK, the USA, Singapore, Brazil, Argentina, Canada, Angola, and Australia.

DOF ASA is listed on the Oslo Exchange since 1997.
