## Artificial Solutions announces purchase of 6.3 MSEK of Bonds

Artificial Solutions® (SSME:[ASAI](#)), the leading specialist in enterprise-strength conversational AI, announced it has purchased 6.3 MSEK of Bonds due for repayment on the 5<sup>th</sup> June, 2021 at par value in order to bridge a transfer to a new Bondholder. The purchase has been made from available cash resources. Following the transfer to the new Bondholder in return for a cash sale, which is expected to be completed in the short term, the number of Bonds will return to the current level of 52 MSEK.

### About Artificial Solutions:

Artificial Solutions® is the leading specialist in enterprise-strength conversational AI, a form of Artificial Intelligence that allows people to communicate with applications, websites and devices in everyday, humanlike natural language via voice, text, touch or gesture input.

Designed for the global enterprise, Artificial Solutions' advanced conversational AI platform, Teneo®, allows business users and developers to collaborate on creating sophisticated, highly intelligent applications that run across over 35 languages, multiple platforms and channels in record time. The ability to analyze and make use of the enormous quantities of conversational data is fully integrated within Teneo, delivering unprecedented levels of insight that reveal what customers are truly thinking.

Artificial Solutions' conversational AI technology makes it easy to implement a wide range of natural language applications such as virtual assistants, chatbots, speech-based conversational UIs for smart devices and more. It is already used daily by millions of people across hundreds of private and public sector deployments worldwide.
