PRESS RELEASE

Prestigious new deal for Advania Sweden

Advania won the procurement to create a new modern IT infrastructure for Trollhättan Energi AB.

“It is important for us to meet the current and future needs of the business and to introduce the new IT platform as smoothly as possible, with good cost control. Therefor we sought for a partner with experience of similar projects. Advania presented a well- elaborated proposal corresponding to our expectations of how the migration project was to be implemented. With solution suggestions, good references and a clear schedule adapted to our needs, we felt confident that Advania would guide us through the change. We have met an organization with a well-structured approach that makes us feel satisfied with our choice and are looking forward to an exciting journey with Advania”, says Anna Robertsson, Procurement Manager at Trollhättan Energi AB.

The agreement is a supplier procurement and enables further future projects, as well as managed services. More specifically, Advania will deliver the following products and services:

- ✓ Analysis of existing IT infrastructure

- ✓ Implementation and migration of directory service
 - Client Management
 - Data Center Management
 - Collaboration Platform
 - Distance Workplace
 - Two factor authentication
 - Secure file Management
- ✓ Educational package for all employees
- ✓ Communication plan for all employees before and during project implementation

The agreement includes the implementation of projects for all units and users within Trollhättan Energi's operations, focusing on security about functions and implementations. Trollhättan Energi is governed by both the NIS Directive and GDPR. The project will also create conditions for deploying IT infrastructure in various cloud services.

“Advania has shown that we understand the challenges of our customers and are able to transform this into a clear offer for both project methodology and technical implementation. We demonstrate that we are a supplier with a comprehensive commitment beyond technology, aiming to provide Trollhättan city’s residents with a sustainable and simple everyday life. The collaboration with Advania also creates opportunities for Trollhättan Energi, to comply with laws and regulations with a modern IT infrastructure”, says Björn Mogensen, Chief Solution Architect, Advania in Sweden.

About Advania

Advania is a Nordic IT corporation, operating in 22 locations in Sweden, Iceland, Norway, and Denmark. The company focuses on helping customers to improve their performance with innovative use of best available IT platforms and services. Advania serves thousands of corporate customers, multinational enterprises, governments and public institutions, big, small and medium-sized companies in all aspects of society. Advania traces its roots to 1939 when an Icelandic entrepreneur founded an office equipment repair workshop in Reykjavik. In the following decades, three separate branches of IT-companies evolved in three Nordic countries, Iceland, Sweden, and Norway. In 2012 they were braided into one and Advania was formed.
