*The information was submitted for publication, through the agency of the contact person set out above, at 8am CET on 6 September 2019.*

**About Ascelia Pharma**

Ascelia Pharma is an oncology-dedicated orphan drug development company located in Malmö, Sweden. The company's strategy is to develop drugs, which target unmet medical needs, have an established mode of action and a relatively low development risk. Ascelia Pharma has two drug candidates – Mangoral® and Oncoral – currently under development.

Mangoral is a novel contrast agent for MR-scans and is ready for Phase III clinical studies. Mangoral is developed to improve the visualization of focal liver lesions (liver metastases) in patient with impaired kidneys that cannot tolerate current gadolinium contrast agents on the market. Oncoral is an oral chemotherapy tablet ready for Phase II for the treatment of gastric cancer. Ascelia Pharma is listed on Nasdaq Stockholm (ticker: ACE).
