Flygtaxi – part of Cabonline – selected as preferred partner in SAS Transfer

Flygtaxi Sverige AB, a part of Cabonline Group, is proud to be selected as the preferred taxi partner for the newly launched SAS Transfer service – a smart and convenient solution for smoother travel to and from the airport.

Flygtaxi Sverige AB was founded in 1988 and has since simplified ground transport for air travelers. Now, as part of Cabonline, Flygtaxi is the preferred taxi provider for SAS Transfer – available in key markets across Sweden, Norway, Finland and Denmark.

– We're excited to be part of this new solution from SAS. Making it easier for travelers to seamlessly combine flights and ground transport strengthens the overall travel experience. As a long-time provider of airport transfers in the Nordics, we're proud to now be part of SAS Transfer and help connect the journey all the way from home to the gate – and from the gate to the final destination, says Magnus Creutz, CCO at Cabonline.

What is SAS Transfer?

SAS Transfer is a new global feature from SAS that lets travelers seamlessly book flight transfers, pre-booked or on-demand taxis, and trains—all in one simple, streamlined flow. The service ensures a reliable, fast, and smooth journey to or from the airport, with everything booked directly through the SAS website or app.

A key feature is the ability to **compare multiple ground transport options** before selecting the one that best suits your needs. And coming soon: customers will also be able to **earn EuroBonus points** on eligible transfers – adding even more value to the journey.

What does this mean for travelers?

- One combined booking. One smooth journey. Add taxi transport when booking your SAS flight.
- Flygtaxi part of Cabonline offers fixed prices and reliable service.
- Available in Sweden, Norway, Denmark and Finland.
- Our service is seamlessly integrated into the SAS Transfer platform.

– This partnership with Flygtaxi strengthens SAS Transfer by adding trusted, local expertise in key Nordic markets, says Caroline Bergström, Head of Ancillary Products Connectivity and Retail, at SAS.
