## Cabonline Quality Week in Stockholm – 1,500 taxis inspected

**Yesterday marked the conclusion of Cabonline’s traditional Quality Week in Stockholm, during which all 1,500 taxis were inspected. The initiative ensures that every vehicle meets the company’s high standards for safety, condition and equipment – while also providing an extra opportunity for drivers, transport partners and Cabonline’s teams to meet.**

Throughout the week, Cabonline’s teams gathered at the Stinsen facility in Sollentuna to perform detailed checks on each car. The inspections covered tyres, alcohol interlocks, taximeters, pricing information and overall vehicle condition. Any issues identified were resolved immediately to ensure top performance and passenger safety.

“Quality Week is not only about inspecting our vehicles – it’s also an opportunity to meet our drivers and transport partners. They do a fantastic job every day, and I feel so proud when I see the skilled and dedicated people we have out on the road,” says Kicki Erkers, Regional Manager for Cabonline Stockholm.

Cabonline’s Quality Weeks are part of the company’s systematic approach to safety and service, conducted twice a year in different regions. Through these inspections, all vehicles are ensured to meet the company’s high standards for safety, quality and accessibility.

### Quick facts:

- When: 3–6 November, Stinsen, Sollentuna
- Cars inspected: 1,500
- Focus areas: safety, condition and equipment
