About 2cureX
2cureX has developed a test called IndiTreat® (Individual Treatment Design), which is a patented and CE-IVD marked test for selecting the right drug for the right patient. IndiTreat® establishes thousands of 3D micro-tumors that are functionally similar to the patient's tumor. From a large panel of approved cancer treatments IndiTreat® presents the best treatment for the individual patient. IndiTreat® is expected to become a standard tool in the treatment design for cancer patients.

IndiTreat® is currently being clinically validated in colorectal, ovarian and pancreatic cancer.

The company is listed at the Nasdaq First North stock exchange in Stockholm (symbol "2CUREX").
