ABOUT TOADMAN

Toadman is a Swedish gaming development studio based in Stockholm, whose business concept is to develop games for a growing consumer market for players on a global basis. The focus is primarily on games in the areas of action-based Role Playing Games but can also be games in related areas. Since its foundation in 2013, the Company's employees have been involved in the development of well-known PC and console titles, as well as mobile, including Dead Island, Killing Floor, and Warhammer: Vermintide. The Company's goal is to create an independent gaming development company that develops games through its own investments, which thus does not have to rely on external investments. The Company's strategy is to continue to grow by developing games in its existing offices, and to work its way up the value chain by first going towards developing games through own resources and then also placing games on its own.
